

SECURITY: IP CAMERAS

As security cameras continue to evolve from analog to Internet Protocol cameras, the need for sensors increases as well. Sensors that need to be able to operate in harsh conditions and in an energy efficient way.

3D Hall sensor

MLX90393

Camera position detection

Fan driver

MLX90411

Single coil fan for GPU

Thermal camera FIR array

MLX90640

Thermal imaging, people detection

ToF 3D camera chipset

MLX75023 & MLX75123

3D imaging, people detection
