

# WASHERS AND DRYERS

Washers and dryers are changing rapidly and require multiple types of sensors to be smarter and more user-friendly. Sensors also play a significant role in being more efficient in the use of water and electric power.

## Hall latch

MLX92221

Dosing pump

## Hall switch

MLX90248

Open/close detection

## 3D Hall sensor

MLX90393

Rotary knob with push  
(contactless)

**Contactless temperature sensor**  
MLX90614

Clothes temperature (dryers)

**Linear Hall sensor**  
MLX90290

**Hall resolver**  
MLX90380

**3D Hall sensor**  
MLX90363

BLDC motor position/angle

**BLDC motor pre-drivers**  
MLX83203

BLDC motor control (pumps)

MLX90412 & MLX80301

BLDC drain pump

**Pressure sensor**  
MLX90821

Water pressure

**Hall current sensor**  
MLX91210

BLDC motor control

Power consumption

**3D Hall sensor**  
MLX90393

Liquid level detection

Drum load and vibration detection

Water pressure

**Hall latch**  
MLX92215

BLDC motor commutation

Liquid/water flow rate
