

Type CDHC Ultracapacitors | Cornell Dubilier (CDE)

CDE's **type CDHC** snap mount hybrid ultracapacitors are designed for board mountable power backup applications. These hybrid capacitors charge rapidly and discharge slowly, making them ideal for certain applications including LED lighting and emergency operation of vehicle doors and windows.

Features & Benefits:

- Rapid charge
- PC Board mountable
- Standard snap in design

Applications:

- Solar Lighting
- LED Lighting
- Portable Devices
- Emergency door and window operation
