## For Immediate Release

### Teledyne LeCroy Honors Mouser Electronics for Top Performance

**November 28, 2012** – [Mouser Electronics](http://www.mouser.com), Inc., a top design engineering resource and global distributor for tools and test equipment, has received the [Teledyne LeCroy](http://www.teledynelecroy.com) Emerging Distributor of the Year Award for 2012. The award, one of only three 2012 global awards to be given by the manufacturer, acknowledges the support and investment made by Mouser to develop and promote the Teledyne LeCroy product portfolio during the first year of their distribution partnership.

Keith Privett, Mouser Vice President of Electromechanical, Power & Test, states, "Our team is pleased to accept this top award from Teledyne LeCroy. We appreciate their recognition of our commitment to be first-to-market with the newest products and advancing technology. We look forward to continued success in our partnership to bring design engineers all around the globe the latest innovations in test instruments."

"This award recognizes the extraordinary support from Mouser Electronics to develop and promote the Teledyne LeCroy product portfolio. During this first year, Mouser has gone beyond promoting the initial portfolio to successfully marketing new product families such as the WaveAce 1000/2000 and WaveStation," says Frank McCoubrey, Teledyne LeCroy Distribution Sales Manager. "Throughout this process, Mouser Electronics has been first in marketing these new ranges, emphasizing their desire to be first-to-market with innovative new products and designs."

Teledyne LeCroy Corporation is a worldwide leader in serial data test solutions, creating advanced instruments that drive product innovation by quickly measuring, analyzing, and verifying complex electronic signals. The Company offers high-performance oscilloscopes, serial data analyzers, and global communications protocol test solutions used by design engineers in the computer and semiconductor, data storage device, automotive and industrial, and military and aerospace markets. For more information, visit <http://www.mouser.com/lecroy/>.

With its broad product line and unsurpassed customer service, Mouser caters to design engineers and buyers by delivering What's Next in advanced technologies. Mouser offers customers 19 global support locations and stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects.

-- continued --

Mouser Electronics' website is updated daily and searches more than 10 million products to locate over 3 million orderable part numbers available for easy online purchase. Mouser.com also houses an industry-first interactive catalog, data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

**About Mouser Electronics**

Mouser Electronics, a subsidiary of TTI, Inc., is part of Warren Buffett's Berkshire Hathaway family of companies. Mouser is an award-winning, authorized semiconductor and electronic component distributor, focused on the rapid introduction of new products and technologies to electronic design engineers and buyers. Mouser.com features more than 3 million products online from more than 450 manufacturers. Mouser publishes multiple catalogs per year providing designers with up-to-date data on the components now available for the next generation of electronic devices. Mouser ships globally to over 375,000 customers in 170 countries from its 492,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit <http://www.mouser.com>.

**About Teledyne LeCroy**

Teledyne LeCroy Corporation is a worldwide leader in serial data test solutions, creating advanced instruments that drive product innovation by quickly measuring, analyzing, and verifying complex electronic signals. The Company offers high-performance oscilloscopes, serial data analyzers, and global communications protocol test solutions used by design engineers in the computer and semiconductor, data storage device, automotive and industrial, and military and aerospace markets. Teledyne LeCroy's 45-year heritage of technical innovation is the foundation for its recognized leadership in "WaveShape Analysis" - capturing, viewing, and measuring the high-speed signals that drive today's information and communications technologies. Teledyne LeCroy is headquartered in Chestnut Ridge, New York. Company information is available at <http://teledynelecroy.com/>.
